

Municipal Investment Pool System (KMIP) – System Validation

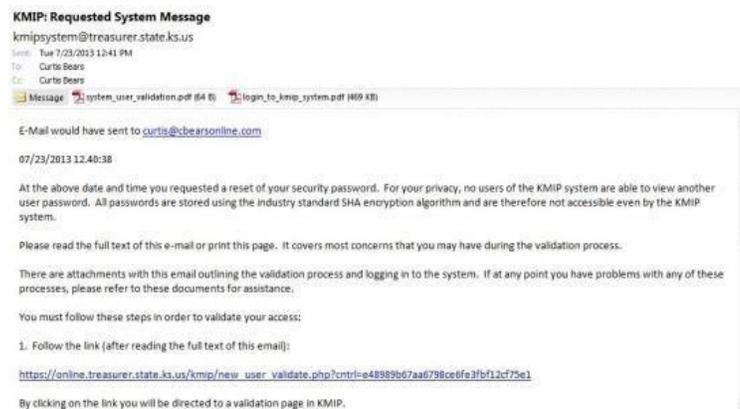

A validation process is required for new users or users who are resetting their password. The KMIP system generates a message to the email address connected to the account. This email includes instructions for successful completion of the process as well as links to follow.

Temporary password: For new users, a temporary password will be sent in a separate email by PMIB staff. For users resetting their password, make note of the temporary password that appears on screen.

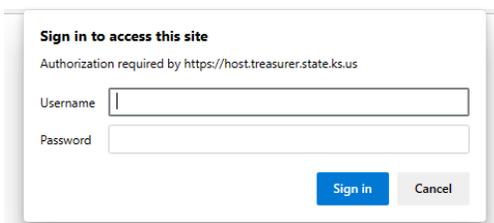

Internet Browser: The latest version of Microsoft Edge or Google Chrome is recommended.

The first link includes a control number used by the system for validation. Depending on your email client, the control number may be partially cut off of the address. If this is the case, you will want to use the second link that does not contain the control number. User help documents are also attached to assist with user validation, system log in and collection entry.

Click on one of the links.

The KMIP system has dual-layer security which requires the entry of 2 sets Operator IDs and passwords for entry. The first set is used by the entire community of system users, while the 2nd set is personal to the user.

Municipal Investment Pool System (KMIP) – System Validation

Control Number: If you were able to use the first link, the control number will already be filled in for you. If not, you will want to highlight and copy the control number from the validation email and paste it in the top field on the page.

Password connected to your account: Enter **TEMPORARY** password.

Password fields: Enter a new password for your account. The password must meet the criteria listed on the screen.

Click “Validate Your Account”.

Topeka, KS Time: 3:44:53 pm

When you see an entry field marked with an * the corresponding field is mandatory entry:

- * Enter the Control Number From the Welcoming E-Mail We Sent:
The easiest way to ensure accuracy is to highlight the number in the email, copy it, then paste it in this field.
- * Enter the password connected to your account:
Passwords are case sensitive! You should have received this password from the individual that added your account or on the page after you chose to reset your password.
- * Please enter a new password of your choice:
Your password is case sensitive, may contain spaces and MUST ADHERE to all of the following:
 - Only modify one time within any 15 day period
 - Be between 12 and 20 characters in length, include
 - Be significantly different than your operator ID and previous password
 - Be used no more than one time during any 12 month period and be different than your previous 24 passwords
 - Utilize at least 2 of the following 4 criteria:
 - At least one letter upper case
 - At least one letter lower case
 - At least one number
 - At least one space or one of special characters ~!@#\$%^&*~
- * Please enter the new password again:

[I feel that my account is already active and validated]

If you did everything appropriately, you will receive a “Record Successfully Validated” window and be presented with the main system login page. This is same page you will see every time you visit the system and is where you will put your personal Operator ID and Password. In most cases, your Operator ID will be your email address and the password will be the one you just entered in fields 3 and 4 on the user validation page. Click “Log Me On”.

If, at any time in the future you have forgotten your password, come to this page enter your Operator ID next to “Enter your operator ID” and click the “Reset” button. **MAKE SURE TO READ THE ENTIRE PAGE YOU GET AND FOLLOW ALL INSTRUCTIONS!** You will be provided with a temporary password and will be sent an email with a link to re- validate your account.
